

To: Parents and Guardians of Eligible Students

From: Durham School Services

Subject: Under 2.5-Mile Transportation Program Registration Information

Durham School Services is pleased to offer transportation opportunities for students who qualify under the district's Under 2.5-Mile Transportation Program. Through this program, eligible students may be assigned to a centralized bus stop or another existing bus stop location that is incorporated into established home-to-school transportation routes.

Before registering, families should carefully review the program requirements and expectations. Because transportation is provided through existing routes and stop locations, students may be required to walk a greater distance than is typically expected under standard bus stop assignments. Families should consider whether the assigned stop location will meet their transportation needs and whether their students can safely travel to and from the designated stop.

Please note that seating for this program is limited. Registration does not guarantee transportation services, as the number of available seats may be less than the number of students requesting participation. When registration requests exceed available capacity, seats will be awarded through a lottery-based selection process to ensure a fair and equitable distribution of available transportation accommodations.

To be included in the lottery process, completed registrations must be submitted no later than **5:00 p.m. on Thursday, August 27, 2026**. Registrations received after this deadline will not be eligible for the initial lottery and will instead be reviewed and processed only if seating remains available. Families submitting registrations after the deadline should anticipate that transportation assignments, if available, may not be issued until **September 7, 2026, or later**.

Families selected through the lottery process will receive additional communication regarding their transportation assignment and schedule. Families who complete registration and submit payment for lottery consideration but are not awarded a transportation schedule due to limited capacity will receive a full refund of any applicable transportation fees. In all other cases, the standard refund policy will apply and is only granted to those that move out of the school district.

Questions regarding transportation can be directed to admin6700@durhamschoolservices.com. Please note that an email will not save a place in the lottery for your student, only completed and paid registrations will fulfill the requirement to meet the deadline. Please limit calls regarding this transportation to Monday-Friday between 9 AM – 2 PM.

We appreciate your understanding as we work to maximize available transportation resources while maintaining safe and efficient service for all students. Families are encouraged to submit registrations as early as possible to ensure consideration during the initial lottery process.

Thank you for your interest in the Under 2.5-Mile Transportation Program. We look forward to serving your transportation needs whenever capacity allows.
